

Fungal Diseases – *freeGo* worksheet

You need to be able to recall the following information about Fungal Diseases:

Required knowledge

Rose Black Spot is a fungal disease

Purple or black spots develop on leaves, which often turn yellow and drop early

It affects the growth of the plant as photosynthesis is reduced

It is spread in the environment by water or wind

Rose black spot can be treated by using fungicides and/or removing and destroying the affected leaves

*Thanks for using your imo*jonation!!!*
